

Growco's main business mission is to offer our clients our high quality Total Measurement Solutions products with competitive pricing in order to assist our clients to achieve their intended applications and objectives. Some of our major industries are Oil & Gas, Petrochemical, Refinery, Transportations, Distributions, Aviations and related industries.

Our Total Measurement Solutions include the following:

- Various Types of Flow Meters (PD , Turbine , etc)
- Batch Controllers
- Control Valves
- Advanced Tank Level Gauges
- Associated instruments and equipment to enhance our solutions

Growco's have many years of experiences in offering such Total Measurement Solutions to many satisfied clients and do feel free to contact us for your requirements.

**Typical Photograph of LS Series
Double Case PD Meter**

Our range of LS Series Double Case PD flow meters for flange connection sizes up to 16" in both Vertical and Horizontal Installations. The above photos shown are our typical PD meters and special materials are available on requests.

**Typical Photograph of LS Series
Single Case PD Meter**

Our range of LS Series Single Case PD flow meters are designed in single case construction for the general applications. It is available as a standalone flow meter with a mechanical counter or complete with strainer and air release head.

The GrowcoLoad GL-E Series Batch Controller is typically used together with flow meters with pulses output and control valves or PLC for loading of products used in trucks loading terminals, barge loading terminals, rail cars, or related processing installations.
