

GROWCO is Good News to Grow your Company to the next level.

SOKIMEX – The Largest Petroleum Company in Cambodia has selected to use our Growco reputable products for the modernization of their new petroleum terminals to increase their overall productivity & revenues.

Understanding the demands of the industry and having the full suites of expertise in engineering and project managements in Cambodia with high quality constructions have enable them to provide consistent results to meet their overall management expectations.

We are very pleased to share that one of our international customers have placed their major purchase order for their supply of our Growco Automatic Tank Gauges (ATG) system for the 9 tanks with Remote Tank Indicators(RTI) with local displays & Growco Multiple Points Temperature (MPT) Probes besides our other Growco products that they have purchased from us over the years. The above photograhs are actual photographs taken at site. Sokimex is very particular to choose the most suitable and reliable type of tank gauges that are available in the markets. Sokimex is very impressed with the Growco ATG Series servo tank gauges that are designed in the most advanced technology utilizing stringent military processing technology to ensure high precision and rugged construction for long term reliability.

Below is the photograph taken before packaging with close-up view for easy viewing.
