
GROWCO is Good News to Grow your Company to the next level.

SOKIMEX - The Largest Petroleum Company in Cambodia has selected to use our Growco reputable products for the modernization of their new Retail Petrol Stations to increase their overall productivity & revenues.

We are very pleased to announce that one of our very important customers in Cambodia called **SOKIMEX** has decided to place their major purchase order for the supply of our **Growco Dispensing / Suction Pumps** for two models. One model has the 6 hoses x 3 products which works independently at both sides of the pumps (such as 3 hoses on each side of these pumps can work simultaneously & independently at any time) and another model has the 6 hoses x 3 products which works with 1 hose at each side of the pump at any time. These are the high end models of such systems and together with **Growco Underground Tank Gauges (UTG) Systems**.

We are indeed very excited with our customer's final choice of our **Growco products' systems** over other competitors' products available in the markets. They have evaluated our competitors' systems and decided that our offered **Growco Products** are the most suitable system to suit their overall application and long term needs.

Our customer's choice of our **Growco Systems** was strongly based on our better technical design, lower installation costs and ease in maintenance. The other beauty of our **Growco Systems** are the ease in operating them without taking too much time during such set up and uses minimum time means maximum usages of the pumping systems to increase their operational productivity as well as increasing their revenues.

This is a very prestigious project that we are very proud of and we would like to take this opportunity to express our sincerest appreciations for their supports and confidences in us. They are one of our major customers globally.

We have shown some of the photographs taken on their contracts won over the years to share with our other global customers and do feel free to contact us or visit our websites for more details.
