

**GROWCO** is Good News to Grow your Company to the next level.

Keppel FELS, the leading rig designer and builder used Growco LS Series Double Case Positive Displacement (PD) Meters and Strainers for their international projects.

Growco double case PD meters and strainers have proven to them as the reliable products that suit very well in their projects for high temperature options which not many makers can do such critical applications.

We are very fortunate with our customers' preferred choice of our **Growco double case PD meters and strainers** over our competitors' products.

Below are some of our many photographs taken before deliveries to Keppel FELS.

Keppel Offshore & Marine are a global leader in offshore rig design, construction and repair, ship repair and conversion, and specialised shipbuilding. They consists of the three different operating companies - Keppel FELS, the leading rig designer and builder; Keppel Shipyard, the expert in shiprepair and conversions; and Keppel Singmarine, the shipbuilding specialist.

We are very honoured to have Keppel FELS as one of our important repeat customers that recognises **Growco** products that give them good values for their projects with the high quality expectations as well as easy in maintenances for their international clients' projects.

These are not easy tasks for our competitors to achieve them.

We would like to express our sincerest appreciations for their supports and trusts in our high quality **Growco's** products.
