

GROWCO is Good News to Grow your Company to the next level.

CNOOC Indonesia uses our Growco GR-L Series Liquid Turbine Flow Meters in the facilities.

CNOOC is China's largest producer of offshore crude oil and natural gas and one of the largest independent oil and gas exploration and production companies in the world. The Group mainly engages in exploration, development, production and sales of oil and natural gas.

In Indonesia, the CNOOC mainly owns interests in the following contracts: the SES PSC, the Malacca Strait PSC and Poleng Technical Assistance Contract. Among these, the Company is the operator of the SES block and owns approximately 65.54% of its interests. All contracts mentioned above are currently at the production stage.

In addition, the Company owns interests in the following PSCs: the South East Palung Aru PSC, the Batanghari PSC and the Madura Strait PSC.

In 2011, CNOOC had 3 new discoveries in Indonesia. All of these discoveries are located in core areas, which can share production facilities with existing oil and gas fields and benefit from the economies of scale.

We are very fortunate with our customers' final choice of our **Growco GR-L Series turbine meters** over other competitors' products available in the markets. Our **Growco GR-L Series turbine meters** are manufactured with our very strict in-house procedures to ensure high reliability and stable measurements and are available with sizes up to 20 inches (or DN 500) and can be made in 316L materials if required by our customers.

Below are some of our many photographs taken before deliveries to our overseas' customers.
