**GROWCO** is Good News to Grow your Company to the next level.

Growco LS Series Positive Displacement (PD) flow meters are designed in single case construction for the general applications.

Our **Growco LS Series Postivie Displacement (PD) Flow Meters** are designed in single case construction for the general applications. This construction is competitive in pricing and will perform to its stated functions. It is available as a standalone flow meter with a mechanical counter or complete with strainer and air release head. There are also options for mechanical preset and/or pulse transmitter for certain applications.

It is widely used in many general applications and we have sold various of configurations to our customers globally for its high quality design and reliable performances. Hence, it gives our global customers more choices to suit their actual needs and conditions at their facilities.

Above are some of our many photographs taken before deliveries to our overseas' customers as well as some actual installations' sites.
