GROWCO is Good News to Grow your Company to the next level.

GrowcoLoad Batch Controllers widely used in marine jetties and petroleum fuels loading / unloading terminals.

Some of our many photographs taken before deliveries to our overseas' customers as well as those already installed at the actual sites.

Our **GrowcoLoad GL-E Series Batch Controllers** are typically used together with flow meters with pulses output and control valves or PLC for loading/unloading of products used in petroleum oil trucks terminals, marine jetties or related installations. Hence, our **GrowcoLoad GL-E Series Batch Controllers** have been widely selected by our global customers to install at their facilities.

We would like to take this opportunity to express our sincerest appreciations for our global clients' supports and trusts in our high quality **Growco's** products which provide very good value-add to their investments.
